CORRIGENDUM TO "DISPERSIVE ESTIMATES FOR T-DEPENDENT HYPERBOLIC SYSTEMS"

REND. SEM. MAT. UNIV. POLITEC. TORINO 66, 4 (2008), 339–349

Due to a typographical error, the norm $\|U(t,\cdot)\|_{L^q}$ in Theorem 5 was replaced by $\|U(t,\cdot)\|_{L^\infty}$. The correct formulation of Theorem 5 on page 347 must read

THEOREM 5. *Assume $(A1)_{\ell,2k}-(A4)$ in combination with (B) and let $\gamma_{\max} = \max_j \gamma(\Sigma^{(j)})$. If $\ell \geq k - 1 \geq \lfloor \frac{n-1}{\gamma_{\max}} \rfloor + 2$, $\ell \geq \gamma_{\max} + 1$ then the dispersive estimate*

$$\|U(t,\cdot)\|_{L^q} \leq C(1+t)^{-\frac{n-1}{\gamma_{\max}}(\frac{1}{p}-\frac{1}{q})}\|U_0\|_{H^{r,p}(\mathbb{R}^n)}$$

holds true for any solution $U = U(t,x)$ of (1) where $p \in [1,2]$, $pq = p + q$ and $r > n(1/p - 1/q)$.
